

WAMS COMMUNITY GARDEN DISPLAY AT THE WALGETT SHOW 2022

WAMS showcased all the produce available from our Community Garden to the Walgett Community. It was a great platform to inform people about the project and why it is so important to the future of the community and it's food security. It also allowed for discussions on optimal future developments for the project and exchange home gardening tips & stories.

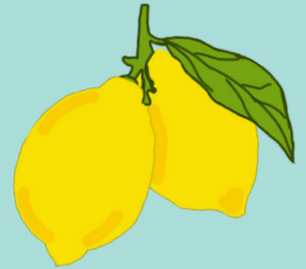

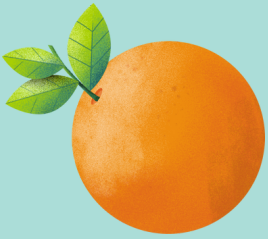

WAMS Staff were on hand bright and early to assemble the large selection of either broccoli or cabbage seedlings in their own little pots as gifts to give away to the public. We even had a visit from Minister of Agriculture & Western NSW, Dugald Saunders MP! Walgett's Elizabeth Weber, State Finalist in the Sydney Royal AgShows, NSW Young Women Program 2022, also stopped in to check out our display.

The seedlings were housed in a biodegradable pot to take home and plant directly into a garden or a pot. This encourages people and shows how easy it can be to grow your own vegetables.

Our WAMS display also included bags of various goodies and free health checks, including lucky door prizes.
