

A physical examination can detect  
a breast cancer the size of a cherry

A screening mammogram can  
detect a cancer the size of a pea

Early detection is vital

If you're aged between 50 and 69 book your  
free breast screening mammogram.

Call **13 20 50**

Do it every two years and it could save your life.

Mobile van will be here on 25 June 2010  
in front of the hospital, Fox Street  
**WALGETT**
