

Bila Muuji Regional Oral Health Approach

Only 3 AMSs in Bila Muuji region have a dental clinic - Dubbo, Walgett, Bourke.

- **Working with health staff both dental and non-dental**
- **Two workshops, to learn about dental issues, and approaches to prevention programs**
- **Then working together to develop a regional oral health promotion plan**
- **Will recruit Regional Oral Health Promotion Coordinator.**

Bila Muuji Regional Oral Health Approach

The regional approach focusses on prevention and oral health promotion.

- as before, focus on early intervention and prevention
- developing oral health training packages for non-dental health staff
- developing protocols for prevention programs especially in schools and preschools
- need oral health information resources and materials appropriate to Aboriginal people in the Bila Muuji region.
