

Child Protection Week

07.09.2022

Goonimoo raised awareness about child protection with parents and "Keeping our Kids Safe".

This year we are shining a light on children growing up safe and supported. We had a LARGE outside "Keep our Kids Safe" display with everything in purple for the event.

There were arts & crafts including purple bird painting and baby finger painting sensory play.

We also taught the children through play with "who are safe people and "where we feel safe".

Morning Tea was provided and a Yarn & Cuppa about Child Protection, what children and families are telling us and what evidence is showing us and how to translate this into action. An activity Booklet, which included help lines contact details, were provided to all parents.
