Example 1:

A client of the HASI in the Home in Coonabarabran has begun an introduction to computer's course through the local TAFE.

The service user who before starting on the HASI in the Home program had spent many long periods of illness staying at a Mental health Inpatient Unit's followed by short periods in the community.

Since the beginning of her receiving support from the HASI in the Home program the service user has begun seeing a local GP for some physical health issues.

The service user now attends the computer course with the support of the HASI in the Home aboriginal mental health trainee who participates and supports the service user in the course.

Example 2:

Last year we provided intensive holistic case management for up to 10 people. By engaging with our service clients gained assistance with material aid, family issues, legal issues, physical and mental health, employment support, budgeting, education and training, and social contacts.
