

## **WAYS TO GET INVOLVED**

### **National campaign to reduce violence against women and their children**

Thank you for supporting the *Violence against women, let's stop it at the start* campaign. Research shows that we need many voices in the community to positively influence the attitudes of young people towards respectful relationships and gender equality.

We can all be part of the solution, and help break the cycle of violence against women and their children.

There are many ways you can support the campaign and get involved.
