

# PCYC Walgett Friday Night We're Alright 2019

January - February 2020

The Walgett Aboriginal Medical Service supported PCYC to provide transport, meals and activities at PCYC Walgett to deliver tailored programs to the youth of Walgett.

The Friday night program was established in the effort to divert the youth of Walgett away from engaging in criminal or antisocial behaviour.

These programs relieve the youth and their families from the pressures of the ongoing drought in an environment that is safe, rewarding, challenging and age appropriate.
