

WELCOME to WALGETT

2nd March 2022

WAMS Public Health Officer, Bruce Moore, attended this annual event to introduce the new residents to the available services that WAMS provide to the local and surrounding communities. This event is a great way for new residents to engage, form new friendships and grow within the community.

On display were WAMS Annual Report, face masks, mouse pads and hand sanitizer, all of which were displayed on our beautiful Frank Wright tablecloths.

The wonderful ladies of the Walgett CWA supplied the venue and also the delicious home cooked food.

The event was a huge success with well over 20 new residents in attendance from a diverse range of cultures, backgrounds and occupations, including teaching staff and health workers, who will be a great contribution and also much needed in our community.
