

Mosquito Repellant and Sanitiser Distribution

Staff from WAMS delivered Covid supplies to residents at Namoi and Gingie Villages which included roll on repellant to help combat the increase in mosquitoes and sandflies due to receding flood waters.

The supplies included sanitiser, masks, wipes and gloves.

25 bags were handed out at Gingie Village and
35 bags at Namoi Village.

Physiotherapist, Rob Martinez, Aboriginal
Health Worker, Kiara Smith and Public Health
Worker, Bruce Moore assisted with the
distribution of these supplies.

The residents were happy to receive
these as some were unable to get into
town during the floods to replenish.
